PREFACE

The response to the 1981 Directory of Computers and Applications in Ontario Municipalities indicated that there was a continuing need for a ready reference that would enable people to find answers quickly to questions such as:

Who has application "X" on computer "ABC" ?

Which municipalities have an "ABC" computer model "I" ?

Is anybody working on system development "Q" ?

What has municipality "Y" got on computers?

Where can I get software for "X" and
what language(s) is (are) being used?

This new Directory, designed to answer such questions, incorporates ideas and suggestions by readers who used the previous version (December 1981). The task of updating the data and standardizing application names was undertaken by the Ministry of Municipal Affairs in conjunction with the Municipal Information Systems Association (MISA). The Directory's content was supplied by municipal people throughout the province.

The Ministry is grateful for the time and effort of those who responded to requests for information about their computer systems and operations.

1. INTRODUCTION

1.1 Background

The evolution of information systems in Ontario municipalities has changed to a revolution, if not an explosion. In 1967, when the then Department of Municipal Affairs undertook a survey of municipal data processing, only a handful of municipalities used computers; by 1976 this had increased many fold. The study that led to the publication of Using Computers in 1980 also showed a clear need for information about computers and applications, a need that resulted in the publication of the 1981 Directory of Computers and Applications in Ontario Municipalities. Since then, the use of computers in municipalities has more than doubled.

Concurrent with the technological innovations, particularly with the entry of the microcomputer into the commercial market, came an increased awareness of the availability of computer power at an affordable price. Greater demands for information arose from the public, from municipal councils, and from outside agencies and staff. Expectations of municipal responsiveness by using the new technology often surpassed the ability to develop systems using traditional methodologies. It became essential to draw heavily upon work that had already been done by others; and to discover what work others were doing in areas of mutual interest.

The Ministry of Municipal Affairs undertook to update its records in regard to computers and applications. With the assistance of the Municipal Information Systems Association (MISA), Ministry staff developed an improved data base using microcomputer technology, and during 1984 surveyed all Ontario municipalities to obtain the most current and accurate data on the use of computers as was possible.

This Directory is the result of that work.

1.2 Purpose

The purpose of this Directory is to provide a ready reference for people who need information concerning the municipal use of computers. The contents are arranged in a variety of formats, based on the most common questions asked. For example;

- Which municipalities use computer ABC?
- Who has application XXX running on computer B?
- Who is developing applications on computer C?

For the municipality considering acquiring hardware and software, this Directory has information about similar municipalities and about applications which they would like to implement. It provides the name and the telephone number of the person to contact.

For the more advanced, there are cross-references by application, equipment and vendor. In addition, for those who have computers themselves, special requests from the complete and current data are available from the Ministry's microcomputer database in machine-readable form.

Whether the interest of the user is in a specific application, a particular municipality, or certain equipment, the information is in this Directory.

1.3 Organization

There is a formidable amount of data currently in the Ministry's microcomputer files, and more is being added constantly. No document that is too bulky to handle is useful. Therefore, the printed version of this Directory has been divided into five separate publications. These five publications are described below:

	Publication Title	Description
1.	Directory (main publication)	Contains all information except Computer Profiles.
2.	Profile Directory	Upper Tier Municipalities
3.	" "	Cities and Boroughs
4.	" "	Separated Towns, Towns and Villages
5.	" "	Townships, Development Area Boards and Improvement Districts

The Applications section of this publication is the major cross-reference. It provides a complete listing of applications, in alphabetical order, followed by references for municipalities using those applications and on what equipment they are being processed. In order to help users find the application in which they are interested, a list of application codes (by which applications are identified) is included.

The Municipal Profiles publications provide further details on municipal applications for the municipalities contained in that volume.

The Municipal Profiles noted on page 4 are bulky in size and are not intended for general circulation. However, copies can be made available on request to interested parties. Please contact the Ministry at the address noted on Page 6 of this Directory if you wish to receive a copy of one or more of these Municipal Profiles.

1.4 Contents

The Directory contains information supplied by municipalities. Every effort has been made to ensure that this information has been recorded accurately. The alert reader will note, however, that there is little data concerning microcomputers in the Directory. The ommission is deliberate.

A separate study was undertaken by the Ministry in 1984 on the use of microcomputers in Ontario municipalities. A series of publications resulted from that study. Two of these publications have catalogued the use of microcomputers; one for municipalities under 5000 population, and one for those over 5000 population.

1.5 Updates

As with any reference document, this Directory is only as useful as the currency and accuracy of its contents. The Ministry will be continually updating the information. If a municipality makes changes to its computer hardware or software, or if you detect an error in this Directory, please notify the Ministry at the address given below. An update form is provided at the back of this publication, but a simple letter will suffice. Send revisions or information to:

Ministry of Municipal Affairs
The Director
Municipal Management Policy Branch
777 Bay Street
11th Floor
Toronto, Ontario
M5G 2E5

(416) 585-7201

1.6 Comments or Suggestions

This Directory is a continuing project. As needs or circumstances change, there will be new items or changes that some readers would like to see included in the next edition. Any suggestions or comments as to the value of the Directory, or how it could be improved are welcome. Please send them to the address given above.

2. OBTAINING INFORMATION

2.1 Using the Directory

Every effort has been made to structure this directory for ease of use.

If you require information about a particular APPLICATION, for example whether any municipality like yourself has developed an application of interest, then look up the APPLICATIONS cross-reference report in Section 4. It might be useful to check the STANDARD APPLICATION CODE list also (Appendix 5.2) in case someone uses a different name for an application similar to the one in which you are interested. The APPLICATIONS cross-reference should provide you with the information you need; if more is required, you should check out similar municipalities in the MUNICIPAL PROFILES (separate publications) or call the municipal contact person.

If you want to know whether you can get further data on any item related to municipal systems, check the STANDARD REPORTS (Section 3) to see what is available.

2.2 Inquiries

As time goes by, the contents of the Directory will quickly become dated. There may also be things you wish to know about that are not contained in the Directory. Written inquiries may be sent to the Ministry at the address given in Section 1.5. The Field Offices are also available for information and assistance. Their addresses and telephone numbers are listed at the end of this Directory.

2.3 Special Request Forms

For your convenience, Request Forms have been included at the end of this publication. They may be used to request any of the standard reports listed in Section 3.

You may also use the form for inquiries or requests for information or data other than the standard reports. For example, listings can be provided for a single municipality, for various groupings or ranges, or for sets of applications.

3. REPORTS

There are a variety of standard reports that can be produced for your use. The list below is followed by a short description of each of these reports.

On many occasions a complete report is not as useful as a partial report. For example, only one or two applications, or a group of municipalities within a given population range may be desired. Therefore, the selection criteria for requesting a partial report is shown after the description of the report.

3.1 List of Standard Reports

Municipal (Code) Index
Application/Hardware/Vendor Index
Hardware/Application/Vendor Index
Vendor/Application Index
Municipal Computer Profile
Municipal (Alphabetical) Index
Municipal (Population) Index
Application Report *
Equipment Report
Service Bureau Users Report
Municipal Contact Name and Address Listing
Vendor Listing *
Standard Application Codes *

* These reports are contained in this publication.

The remainder are non-standard reports which can be produced by the system on demand. As the system is enhanced, more reports will be added. If you have any suggestions as to the report formats, or additional reports that would be useful, please contact the Ministry at the address noted in Section 1.5.

3.2 Report Descriptions and Samples

MUNICIPAL CODE INDEX

The MUNICIPAL CODE INDEX simply lists municipalities showing the official name of the municipality, its code (as referenced in the publication, the Municipal Directory, and in the Municipal Analysis and Retreival System database (MARS)), and the 1982 enumerated population. This listing is normally produced in numeric code sequence. Two alternate sequences are alphabetic by municipal name and by population size.

(sample report)

Municipal Code	Municipality Name	1982 Enumerated Population
01000	Metro Toronto, Region	2140347
01101	Toronto, City	614763
01102	Etobicoke, City	296767
01103	Scarborough, City	435980
01104	North York, City	560443

This listing appears in full in municipal code order in Section 5.1 of this Directory.

3.2 Report Descriptions and Samples (continued)

APPLICATION/HARDWARE/VENDOR INDEX REPORT

This report is sorted according to municipal application. For example, ACCOUNTING - ACCOUNTS PAYABLE or ACCOUNTING - ACCOUNTS RECEIVABLE.

For each application, the make and model of hardware, vendor name (service bureau or software vendor) and names of municipalities using the specified combination under the given application are noted.

(sample report)

ACCOUNTING - ACCOUNTS PAYABLE

Hardware		Service Bureau or	
Make	Model	Software Vendor	Municipal Name
Burroughs	B80	Burroughs	Nanticoke City
	B80021-711	In-house	Meaford, Town
	L4000	Muskoka, Dist	Muskoka Lakes
	L9900	In-house	Fort Frances
Digital	Vax 11/750	In-house	Muskoka, Dist
Honeywell	Dps 7/45	In-house	Peterborough
	DPS 8/49	In-house	Sudbury, Reg'n

3.2 Report Descriptions and Samples (Continued)

HARDWARE/APPLICATION/VENDOR INDEX

This report contains the same information as the previous report, but is sorted in a different order so as to provide the major cross-reference by hardware.

(sample report)

Burroughs L9000

Application Name	Service Bureau or Software Vendor	Municipal Name
Equip & Supplies - Inv	In-house	Timmins, C
Payroll/Personnel	In-house	Timmins, C
Taxes - Billing	In-house	Ft Frances
Taxes - Billing	In-house	Timmins, C
Taxes - Receivable	In-house	Ft Frances
Taxes - Receivable	In-house	Timmins, C

3.2 Report Descriptions and Samples (continued)

VENDOR/APPLICATION INDEX

This report is similar to the previous two, but is organized according to vendor. It contains only service bureaus and software vendors.

(sample report)

Service Bureau or Software Vendor	Application Name	Municipal Name
Realtime Datapro	Accts Payable	Newcastle, T
	Accts Receivable	Haldimand, T
	Budget Prepar'n	Flamborough, Tp
	General Ledger	Milton, T
	Payroll/Personnel	Haldimand, T
	Taxes - Billing	Belleville, C
	Taxes - Rec	Belleville, C
Aurora Hydro	Water Billing	Aurura, Town
	Water Receivable	Aurora, Town

3.2 Report Descriptions and Samples (Continued)

MUNICIPAL COMPUTER PROFILE

This report provides complete information about each municipality in regard to its computer systems and applications. It includes equipment at each major site, contact names and telephone numbers, applications running at each site, whether the application is written in-house or has been acquired as a package, the language used or vendor who supplies the software and the date the software was implemented (or whether it is planned).

Because of its complexity, there are various selection criteria for this report. Some examples are :

- specific municipal types (towns, villages, etc)
- by population range
- specific municipalities

Report order may be any of the following:

- municipal code
- municipal name
- population size (ascending or descending)

Municipal computer profiles are contained in a separate publication.

3.2 Report Descriptions and Samples (continued)

MUNICIPAL INDEX - ALPHA

This report provides the same data as in the Municipal Index report; however, it is in alphabetical sequence of municipal name.

MUNICIPAL INDEX - POPULATION

This report provides the same data as in the Municipal Index report; however, it is in order of descending population.

APPLICATIONS REPORT

The Applications Report shows, by major and minor application, the equipment, language, planned or installed status and municipalities in alphabetical sequence. This report is contained in full in Section 4 of this publication. Since a complete report takes some 130 pages, it is suggested that some of the following selection criteria be used before requesting any additional printouts.

- installed applications
- planned applications
- in-house applications
- vendor applications
- specific applications

The report can be sequenced by major and/or minor application or by municipality name.

3.2 Report Descriptions and Samples (Continued)

EQUIPMENT REPORT

This report describes makes and models of computers, what applications are being processed on each, and which municipalities are using that equipment for this application. To increase its usefulness, there are several selection criteria to enable users to investigate only the equipment in which they are interested.

The selection criteria for this report can be make and/or model of hardware, municipal status type or specific municipalities.

(sample report)

Equipment Make/Model	Operating System	Main CPU	No. of Terminals	Aux. Storage	Municipal Name
DIGITAL					
PDP 11/03	RT11	128K	2	1 MB	Peel Rgn
PDP 11/44	RSX-11M	512K	6	121 MB	Peel Rgn
VAX 11/730	VMS	1024K	5	10 MB	Owen Snd
HONEYWELL					
DPS 7/45	GCOS/TDS	2 MB	34	1.7 GB	Peterboro
DPS 8/49	GCOS	6 MB	54	3.3 GB	Sudbury C

3.2 Report Descriptions and Samples (continued)

SERVICE BUREAUS USERS REPORT

This report lists service bureaus and indicates which municipalities are using them.

You can use any of the following as selection criteria for your report:

- Municipalities acting as service bureaus
- Public sector bureaus
- Banks acting as service bureaus
- Accounting firms as service bureaus
- Private sector service bureaus

Report sequence can be by service bureau type or municipality name.

(sample report)

Service Bureau Name	Municipality Name	Munic Code
Comshare	Niagara Region	18000
	Peel Region	21000
Consolidated Computer	Haldimand-Norfolk R	12000
Control Data	Peel Region	21000
Canada Systems Group	Hamilton-Wentworth R	16000

3.2 Report Descriptions and Samples (Continued)

MUNICIPAL CONTACT ADDRESS LISTING

This listing provides the names, addresses and telephone numbers for contacting municipal people.

For report selection criteria, you may use specific municipalities or municipal population ranges.

(sample report)

Code	Municipality Name	Contact Person	Contact Title	Address
12402	Haldimand T	J. Sangster	Treasurer	P.O. Box 400 Cayuga, Ont N0A 1E0 (416)772-3324
12403	Simcoe T	F. Gelinas	Treasurer	P.O. Box 545 Simcoe, Ont N3Y 4N5 (519)426-5870
12601	Delhi Twp	D. Huggins	Admin-Treasurer	P.O. Box 182 Delhi, Ont N4B 2W9 (519)582-2100

3.2 Report Descriptions and Samples (continued)

VENDOR LISTING

This is a listing of vendors, showing the reference number, address and telephone number of their head office (or the office that they reported to the Ministry).

(sample report)

Code	Vendor Name	Vendor Address	Contact
2200	IBM Canada Ltd	3500 Steeles Ave W	P. Nassr (416)474-2111
2201	Realtime Datapro	797 Don Mills Road	G. Burrows (416)429-0440

STANDARD APPLICATION CODE LISTING

This report simply lists standard application codes by major and minor code, and gives the corresponding major and minor names in full.

(sample report)

Code	Major Name	Minor Name
TABI	Taxes	Billing
TACE		Certificates
TARG		Registration
TARE		Receivables

4. MUNICIPAL APPLICATIONS REPORT

4.1 General

The Applications Report which starts on the next page, lists all known municipal applications. It shows municipalities, hardware makes and models, programming languages, municipal contact person and telephone number.

It is presented in order of application name first (major and minor), followed by municipal name sequence.

5. APPENDICES

The appendices contain the following listings or forms.

5.1 Municipal Code Index
5.2 Standard Application Code Listing
5.3 Municipal Vendor Listing
5.4 Request Forms
5.5 Update Form
5.6 Ministry Field Offices

5.1 MUNICIPAL CODE INDEX

The following Municipal Code Index lists all 838 Municipalities in Ontario. It indicates municipal code, municipal name and the 1982 enumerated population.

This listing should prove helpful if you are looking at a system printout which gives only the municipal code due to insufficient space for the municipal name. This listing is in municipal code sequence.

5.2 STANDARD APPLICATION CODES

This system uses a four digit coding structure to record application codes. Two digits are used as a major level and two digits for a minor level.

e.g. "ACAP"

- where AC is the major code level representing ACCOUNTING.
- and AP is the minor code level representing ACCOUNTS PAYABLE.

Wherever possible, mnemonic codes have been used to represent application names so that the reader does not have to continuously refer to the table.

The Table of Standard Application Codes used in this publication follows.

CODE	MAJOR NAME	MINOR NAME
AC00	ACCOUNTING	UNSPECIFIED
ACAP	ACCOUNTING	ACCOUNTS PAYABLE
ACAR	ACCOUNTING	ACCOUNTS RECEIVABLE
ACAS	ACCOUNTING	ASSET EVALUATION
ACAU	ACCOUNTING	AUDIT
ACBA	ACCOUNTING	BANK RECONCILIATION
ACCB	ACCOUNTING	CASH PAYMENTS
ACCC	ACCOUNTING	CASH RECEIPTS
ACCK	ACCOUNTING	CHEQUE PREPARATION
ACCM	ACCOUNTING	CASH MANAGEMENT
ACCO	ACCOUNTING	COST ACCOUNTING
ACDA	ACCOUNTING	DEBENTURE ANALYSIS
ACDB	ACCOUNTING	DEBENTURE DEBT MANAGEMENT
ACDC	ACCOUNTING	DEBENTURE REGISTER
ACEA	ACCOUNTING	ENCUMBERANCE ACCOUNTING

5.3 MUNICIPAL VENDOR LISTING

The following listing provides insight into which vendors are in the municipal marketplace. The data for this listing was collected from municipal people and reported to the Ministry. Obviously, there are many other vendors in the municipal systems market; however, only those vendors reported are noted on this listing. Some of these vendors may no longer be operating in Ontario. They are shown because they were the original vendor for the applications that appear on other reports.

The appearance of a vendor name on this listing in no way is an endorsement of this or any other vendor by the Province. This listing is merely an inventory of past municipal vendors. It does not include municipalities, banks, or public sector bureaus acting as service bureaus. The codes shown on the Vendor listing are also noted on some other system reports. They are particularly helpful in finding a vendor name when the report gives only the vendor code.

Every effort has been made to keep this inventory current. Readers interested in automating municipal systems should always obtain proposals from numerous vendors active in the municipal marketplace. These proposals are usually requested through the Request For Proposal procedure after you have defined your needs.

MUNICIPAL DATA PROCESSING DIRECTORY
UPDATE FORM

---

1. GENERAL INFORMATION SECTION

Please fill in the spaces as shown. If you do not know the response, skip over that item. The section "EDP Associations" can be completed by indicating with an "X" those associations that your municipality has memberships.

2. DATA PROCESSING LOCATION(S) SECTION

If your municipality has an in-house data processing centre(s), supply the address(es) of the centre(s) and the name(s), title(s) and phone number(s) of the person(s) in charge of the data processing function.

If your municipality uses a service bureau instead of in-house computer equipment, provide the information for the municipal person who deals with this service bureau (e.g. Clerk-Treasurer). Do not provide details of the service bureau contact person.

3. SERVICE BUREAUS USED SECTION

Leave the columns marked "Site Number" and "Service Bureau Number" blank. Fill in the column marked "Service Bureau Name". Include other municipalities, public utilities commissions, as well as private sector firms which act as service bureaus for your municipality.

If your municipality does not use a service bureau, then leave this section blank.

4. EQUIPMENT SECTION

If your municipality has more than one in-house computer, please make a copy of page 2 of the Update Form for each additional computer.

Fill in the space marked "Site Number" with the site number assigned to the data processing location at which this computer is located. Fill in the space marked "Machine No." with a sequence number to identify the number of machines at this location. Fill in the remaining spaces with the make, model and specifications of the computer.

If your municipality has no in-house computer equipment, leave this section blank.

5. APPLICATIONS SECTION

If your municipality has in-house computer(s),list all applications running on each computer with the desired details.

If your municipality has service bureau applications, leave the space marked "Machine No." blank.

5.5
